SECTION 4

CRITERIA FOR EVALUATION

4.1 EVALUATION PROCESS

The evaluation process is designed to award the contract resulting from this RFP not necessarily to the Respondent offering the lowest cost, but rather to the Respondent deemed by the County to be responsive and responsible who offers the best combination of attributes based upon the evaluation criteria. (“Responsive Respondent” is defined as a Respondent that has submitted a response that conforms in all material respects to the RFP. “Responsible Respondent” is defined as a Respondent that has the capacity in all respects to perform fully the contract requirements, and the integrity and reliability which will assure good faith performance.)

An administrative review, by RFP Administrator, of all proposals shall be performed. Proposals that do not comply with submittal instructions established in this document and/or that do not include the required or mandatory information may be rejected as insufficient or non-responsive. Milwaukee County Behavioral Health Division reserves the right to seek clarification or waive a requirement when it is in its best interests to do so.

An Evaluation Committee will be established by Milwaukee County Behavioral Health Division, consisting of three or more individuals, to evaluate all responsive proposals and to make a recommendation to Chief Administrator. A proposer may not contact any member of an evaluation committee except at the RFP Administrator’s direction. Reference the “Questions” section for additional information.

Technical Proposal scoring; each member of the Evaluation Committee shall conduct an independent and individual evaluation of the technical merit of the all responsive proposals. The process involves applying the evaluation criteria and the associated weighting as outlined in the RFP to assess each vendor’s proposal. The criteria that will be used by the Evaluation Committee for the technical evaluation of this RFP are outlined below. Consensus scoring; after individual and independent review by each evaluator, the evaluation panel will meet and a consensus score will be established by the evaluation panel for each proposal, becoming the formal evaluation results and used for recommendation.

The County reserves the right, at its sole discretion, to request proposer clarification of a Technical Response or to conduct clarification discussions with any or all Respondents. All communications, clarifications, and negotiations shall be conducted in a manner that supports fairness in response improvement.

Before Cost Proposals are opened, the Proposal Evaluation Team will review the Technical Response Evaluation record and any other available information pertinent to whether or not each Respondent is responsive and responsible.

Cost Proposal scoring; cost is one of the evaluation categories listed below and will be a defined percentage of the total RFP evaluation. Calculation of points to be awarded to lowest and each

subsequent proposal will use the lowest dollar proposed amount as a constant numerator and the dollar amount of the proposer being scored as the denominator. The result then is multiplied by the total number of points provided in the cost section of the RFP. Lowest cost proposal will receive the maximum number of points available for the cost category. Other cost proposals will receive prorated scores based on the proportion that the costs of the proposals vary from the lowest cost proposal. Cost proposals will be evaluated based upon initial three year contract term.

The evaluation committee's scoring will be tabulated and proposals ranked based on the total numerical scores, comprising the sum of both technical and cost scoring to determine the best value proposal

Oral presentations may be requested by Milwaukee County Behavioral Health Division to one or more, highest scoring respondents. If oral presentations are requested, proposers will be notified of when the presentations are to take place and what information should be provided.

Milwaukee County Behavioral Health Division may enter into clarification and/or negotiations and request Best and Final Offer from any or all respondents. Best and Final Offers are a supplement to the original offer. Milwaukee County Behavioral Health Division reserves the right to make an offer based on the original submitted proposal. Proposers are cautioned to propose the best possible offer at the outset of the process, as there is no guarantee that any proposer will be allowed an opportunity to submit a Best and Final Offer. Milwaukee County Behavioral Health Division reserves the right to select a proposer for contract award based upon the proposer's Technical Proposal and Price Proposal without further discussion.

Clarifications, the county may identify areas of a response that may require further clarification or areas in which it is apparent that there may have been miscommunications or misunderstandings as to the county's specifications or requirements. The county may seek to clarify those issues identified during one or multiple clarification rounds. Each clarification sought by the county may be unique to an individual proposer, provided that the process is conducted in a manner that supports fairness in response improvement.

Negotiations, the county may elect to negotiate with one or more proposers by requesting revised responses, negotiating costs, or contract terms and conditions. The county reserves the right to conduct multiple negotiation rounds or no negotiations at all.

If the county determines that it is unable to successfully negotiate a contract with the apparent best evaluated proposer, the county reserves the right to bypass the apparent best evaluated proposer and enter into contract negotiations with the next apparent best evaluated proposer.

Following completed evaluation, the Committee will make a recommendation to Milwaukee County Behavioral Health Chief Administrator as to whose proposal is determined to provide the best value. County Behavioral Health Chief Administrator will be responsible for contract and execution. Award may be made to the proposal with a higher technical ranking even if its price proposal is not the lowest.

Milwaukee County Behavioral Health Division may perform any due diligence including demonstration of financial strength, examples may include recent annual reports, income statement, balance statement, and/or equivalent information (independent statement of net worth), demonstrations and reference checks prior or after Intent to Award or Award.

County reserves the right to make an offer based on the original submitted proposal.

The award of the contract, if made, shall be with an organization whose proposal provides the best value to Milwaukee County Behavioral Health Division.
